

Search - a comprehensive word, string or Boolean search facility.

Users can send **Queries** to online tutors for help and guidance and save their replies into the VirtualBook.

"Post-it" **Notes** can be recorded and saved in the book, searched and reopened at any time.

Users can add and label **Bookmarks** to mark pages of interest.

Highlighters make important text easily visible.

A **Spell Checker** and **Thesaurus** are included in the VirtualBook.

Progress charts monitor the time spent in VirtualBook and plot average test scores. This data accompanies queries submitted to tutors.

Users can **time** their tests or study sessions.

Setup allows settings such as browser path to be changed after installation.

Print page, chapter or selected pages.

The **WWW** button automatically launches the user's browser and connects to the Internet.

Book Shelf links users to other books within the series or course.

Context sensitive **Help** is available at all times.

Exit closes the book and automatically places a bookmark on the last page accessed.

Human Resource Management
